

# Troubleshooting - Java Version Control

- Check the IE Plugin log for any errors and to make sure the rules are being loaded properly. [Logging](#) has information on how to enable logging for the FSLogix Internet Explorer Plugin.
- Ensure that the FSLogix Internet Explorer Plugin is installed and enabled via **Tools Manage Add-ons**
- Verify the created rules have been deployed. See [Deploying Rule Sets and Assignment Files](#) for more information.
- Make sure you are using 32 bit Java.
- Check to make sure the Service and Driver are running.
